14:25 h Closing Remarks Dr. Priya Manjoo

LEARNING OBJECTIVES

- To describe the latest evidence from heart failure trials and how the heart failure guidelines have evolved
- To compare transcatheter aortic valve replacement with minimally invasive cardiac surgery
- To discuss the latest findings from kidney trials and how the kidney disease guidelines have changed
- To appraise the potential of colchicine in reducing inflammation and cardiovascular risk
- To outline the available therapies for dyslipidemia and the updated lipid guidelines
- To summarize the recommendations for managing atrial fibrillation in diabetes
- To provide an update on using the newer antihyperglycemic agents in cardiometabolic cases

This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada and approved by the Canadian Association of Pathologists-Association Canadienne des pathologistes.
