CanMEDS Roles Covered:

- Medical Expert
- Communicator
- Collaborator
- Leader
- Health Advocate
- Scholar
- Professional

At the end of this activity, participants will be able to:

- Discuss the immunization guidelines and recommendations in Canada.
- Explore the migraine preventive strategies and discuss the latest migraine preventive recommendations in Canada.
- Recognize the importance of an integrated and harmonized people-centered approach for cardiovascular-metabolic-kidney syndrome in people living with and without diabetes.
- Explain the evolving nomenclature for non-alcoholic fatty liver disease and describe current best practices for diagnosing and managing this condition.
- Evaluate the risks and harms from alcohol consumption and summarize the recommendations to reduce alcohol-related risks.
- Compare the asthma and COPD guidelines and distinguish between the available treatment options.
- Deliberate on the potential benefits and risks of introducing AI into medicine.

This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada and approved by the Canadian Association of Pathologists-Association Canadienne des pathologistes. You may claim a maximum of 4.5 hours (credits are automatically calculated).

Through an agreement between the Royal College of Physicians and Surgeons of Canada and the American Medical Association, physicians may convert Royal College MOC credits to AMA PRA Category 1 Credits. Information on the process to convert Royal College MOC credit to AMA credit can be found at www.ama-assn.org/go/internationalcme. Live educational activities recognized by the Royal College of Physicians and Surgeons of Canada as Accredited Group.
