

49th Annual

Toronto Thoracic Surgery Refresher Conference

June 6 - 7, 2025 | Windsor Arms Hotel | 18 St. Thomas Street

Dear Colleague,

The success of the annual Toronto Thoracic Surgery Refresher Conference has been due to the combination of excellent speakers, enthusiastic participants, and the contributions of our generous supporters. The committee for the 49th Annual Toronto Thoracic Surgery Refresher Conference has been formed and is eagerly planning the conference on June 6-7, 2025 at the Windsor Arms Hotel, Toronto, Ontario.

We have invited some top-notch visiting faculty and we are extremely excited to have them join us this year. Besides the University of Toronto Faculty, we have invited many international experts in Thoracic Oncology and Esophageal Surgery. This year we have confirmation of Dr. Sunil Singhal (University of Pennsylvania), Dr. Benny Weksler (Allegheny General Hospital - Pittsburgh, PA), Dr. Matthew Hartwig (Duke University), and Dr. Andrea Wolf (Mount Sinai – New York).

We are extremely excited about the prospects for the Conference this year. Once again, we are planning a whole morning multi-disciplinary lung cancer session including discussion in the novel technologies for diagnosis, minimal invasive surgery, and the use of immunotherapy in combination with surgery. We are also investing significant effort this year to advertise this state-of-the-art conference. We will continue the morning breaks as a full 30-40 minutes to ensure adequate time for the social interaction and networking that past attendees have found so valuable. This may also add valuable opportunities for you to interact with thoracic surgeons currently in practice or at some stage of their training.

This Conference absolutely depends on support from corporate sponsors such as you. We appreciate it tremendously and recognize that in today's market place you have many opportunities to reach surgeons.

We have had about 170 attendees from Canada, US, Europe, and South America and we expect similar numbers for this year.

We will do our part to offer the best possible content to the widest possible audience. Your participation at this conference is welcomed in a variety of ways, including provision of an exhibit.

Supporter details can be found on this prospectus. We very much need your support of this conference and it is equally important to our attendees as they find the interaction with Corporate Sponsors, and having the opportunity to see and evaluate your technologies, is very valuable.

I have asked our Program Coordinator, Ms. Emily Esteban, to reach out to you. We are happy to discuss any other additional sponsorship options. Please do not hesitate to contact us.

Once again, on behalf of our planning committee and University of Toronto, Division of Thoracic Surgery faculty, we thank you for your ongoing support and look forward to seeing you in June.

Sincerely,

Dr. Kazuhiro Yasufuku

Dr. Marcelo Cypel
