Facts About Our Key Program Areas

Annual Meeting — June 11-13, Fredericton, NB

The event will span three days, featuring inspiring workshops, keynotes, engaging social events, and our National Business Meeting, with sponsors enjoying extensive visibility with 500 co-op members and staff from across Canada.

Tradeshow — June 12-13

The two-day tradeshow will include dedicated hours for attendees to visit your booth, providing valuable face-to-face time with key decision-makers to showcase your products or services, create new connections, and build deeper relationships. As our event becomes more sustainable, we asked our vendors to do the same. For example: by providing sustainable giveaways at your tables.

Greener Co-op Microgrants

This is an excellent opportunity for your organization to be recognized as a leader in environmental sustainability. For the last 10 years, with the support of sponsors, CHF Canada's Greener Co-op Microgrants have supported a range of sustainability-focused projects including community gardens, energy audits, lighting upgrades, bike storage, low-flow toilet replacements, and more. Over the past five years, more than \$880,000 has been awarded to housing co-ops through the support of funding partners like you.

Diversity Scholarships

This is a great way for your organization to financially support emerging leaders in the co-op housing movement pursuing post-secondary education while promoting diversity and volunteerism among young members. Your financial contributions will be amplified, as CHF Canada also provides funds for these scholarships in several non-federated areas, and for the diversity scholarship programs led by the Co-operative Housing Federation of Toronto and other Ontario federations.

Education Events

CHF Canada hosts in-person regional education events each fall in Southwestern Ontario, the Atlantic, Sudbury, and the Prairie Region (Manitoba and Saskatchewan). Attendance varies by region, with up to 100 participants at the Southern Ontario and Atlantic Summit events.

CHF Canada offers a variety of sponsorship options that can be program or event specific. You can select from the following program or à la carte sponsor options.

Program Options

Greener Co-op Microgrant — 10th Anniversary Options (\$1,000 and up)

Be recognized as a leading supporter of environmental sustainability. Launched in 2015, the Greener Co-op Microgrant Program has provided small but impactful grants to housing co-ops across Canada. Over the past 10 years, the program has helped co-ops reduce energy use, cut costs, and make their communities more sustainable.

If your organization has a focus on sustainability, help CHF Canada expand the Greener Co-op Microgrant Program so that more co-ops across Canada can implement green initiatives. New in 2026, we are introducing a Major Sponsor. Sponsor benefits vary based on sponsorship amount including visibility at events and through online recognition. For more details, please contact Julie LaPalme at jlalpalme@chfcanada.coop.

In 2025, CHF Canada allocated \$59,000 to 20 co-ops in eight provinces. Thanks to our generous sponsors, we were able to fund community gardens, bike storage spaces, a greenhouse, smart thermostats, trees, lighting upgrades, and more.

Greener Co-op Microgrants in Action

Caroline Co-op, Hamilton, Ontario

Caroline Co-op used its \$4,000 microgrant to deliver two high-impact sustainability upgrades. The co-op installed accessible raised garden beds that now serve as a popular gathering space promoting healthy eating and intergenerational connection. It also transformed an unused basement into secure bicycle and stroller storage, encouraging active transportation.

Both projects were completed with strong volunteer leadership from member committees. The upgrades improved the co-op's environmental performance while strengthening community life — showing how a modest microgrant can create lasting, member-driven change.

Killick Ecovillage Co-operative, Portugal Cove-St. Philip's, NL

Killick Ecovillage used its \$4,000 microgrant to kick-start the construction of a new greenhouse on co-op land—an investment that grew even further when the co-op secured an additional \$10,000 provincial grant. Together, these funds allowed members to build two all-season greenhouses and cover key costs such as equipment rentals, irrigation materials, and shipping to Newfoundland and Labrador. The plastic coverings will be added in early spring, when weather conditions permit.

This project significantly boosts the co-op's long-term sustainability: providing protected space for its tree nursery, enabling earlier planting and higher food production.
